INTRODUCTION

Under the general direction of the Chief Medical Examiner, the incumbent in this class directs the operations and activities of the Forensic Laboratory Division to ensure compliance with current professional forensic standards and applicable legal requirements.

DISTINGUISHING FEATURES

Class 2458 Chief Forensic Toxicologist is distinguished from class 2457 Forensic Toxicologist Supervisor, which serves as the first-line supervisor to subordinate professional and technical staff, by its responsibility for the overall operation of the Forensic Laboratory Division, including the development, implementation and oversight of division policies, procedures and protocols.

SUPERVISION EXERCISED

Supervises the work of all Forensic Laboratory Division staff, including Forensic Toxicologist Supervisor, Assistant Forensic Toxicologists Forensic Laboratory Analysts and Public Service Aides.

MAJOR, IMPORTANT, AND ESSENTIAL DUTIES

According to Civil Service Commission Rule 109, the duties specified below are representative of the range of duties assigned to this job code/class and are not intended to be an inclusive list.

1. Directs the operations and activities of the Forensic Laboratory Division of the Office of the Chief Medical Examiner; plans, organizes, coordinates, supervises and evaluates all work in the toxicology laboratory; develops, recommends and implements policies, procedures and protocols for the division; enforces adherence to established department policies and procedures, including those governing specimen handling, processing and security, chain of custody, reporting and record keeping, release of specimens and disposal procedures consistent with the department's retention and disposal policy and state law; develops, updates and monitors compliance with a quality assurance program to ensure that all results reported by the laboratory are scientifically reliable, accurate and timely.

2. Develops and implements policies, procedures and protocols necessary to ensure compliance with current professional and legal standards, including: standards and procedures for specimen handling, processing and security, release and/or disposal of specimens in accordance with the department biohazard, blood borne pathogen and security policies; reporting and record keeping procedures; new methods for detecting drugs and other toxic materials; drug detection flow and analysis systems for effective and cost efficient drug analysis; procedures for maintenance and troubleshooting of scientific instrumentation faults, with return to service; validates all new drug assays and prepares a procedure protocol for each analytic method; develops cost benefit analyses for all new procedures.

3. Develops, implements and monitors training procedures, technical and performance
Title: Chief Forensic Toxicologist
Job Code: 2458

standards for the toxicology and other forensic staff; develops complete, up-to-date and
detailed step-wise procedure manuals to clearly delineate the division’s standards,
protocols, policies and procedures, and compliance with department policy; ensures that
laboratory personnel are adequately and contemporaneously trained and proficient on
analytical and instrument techniques, policies, procedures and quality assurance standards;
ensures proper staff training on new equipment and software; maintains software upgrades.

4. Supervises, monitors and evaluates all work of the professional and technical staff;
reviews and recommends to the Chief Medical Examiner personnel actions in the areas of
performance, annual reviews, selection and disciplinary measures; oversees and reviews
work of staff and advises subordinates on the more difficult aspects of the work, and in the
analysis of case histories and data generated in each case; acts as a resource person,
provides professional guidance, technical leadership and direction.

5. Reviews case reports and findings of subordinate technical and professional staff; makes
certain that the analytic results are accurate and conform to case requirements, and signs
all completed reports; interprets the data, confers with and advises the Chief Medical
Examiner and Assistant Medical Examiners with respect to case results and cause of death
determinations; discusses relevant issues with decedent’s family.

6. Conducts and/or oversees difficult and complex toxicological examinations for forensically
significant cases; conducts forensic alcohol determinations and quantitations in
physiological specimens according to methods specified under Title 17, California
Administrative Code of the State Department of Public Health; conducts and/or oversees
analyses of blood, urine, other body tissues and evidence in cases that come to the Office
of the Chief Medical Examiner including postmortem toxicology cases and human
performance toxicology cases; uses complex analytical equipment and methods to
determine the presence of drugs and other foreign compounds in forensically significant
specimens.

7. Serves as the professional expert in forensic toxicology for the Office of the Chief Medical
Examiner; consults with, interprets data for and advises physicians, law enforcement
personnel, county attorneys and officials, and other agencies or commissions in matters
pertaining to forensic toxicology; prepares technical reports and research proposals related
to forensic toxicology; interprets toxicological data from external agencies; assists in case
preparation and compiles technical reports, information and materials for presentation in
court, and, if appropriate, makes recommendations with respect to legal action; testifies as
an expert in court, at Police Commission or other Hearings, and at Medical Examiner’s
inquests on toxicological findings; and gives expert opinion on forensically significant
toxicological data.

8. Oversees the maintenance, acquisition and upgrading of analytical instrumentation,
equipment and computer systems; directs and plans the replacement, upgrading,
installation, integration, maintenance, customization and enhancement of hardware,
insturments and software; evaluates analytical instrumentation and equipment, as well as
computer software and hardware, for compatibility with laboratory analytic flow scheme,
feasibility and benefits; reviews current professional literature and recommends upgrades
and improvements of analytical procedures, automation, instrumentation and direct online
data transfer; ensures that all instruments and software are compatible with a LIMS for
Title: Chief Forensic Toxicologist
Job Code: 2458

future growth of the department; ensures the effective maintenance of the equipment and supplies of the laboratory, including maintenance and troubleshooting of scientific instrumentation; ensures enhancement of a laboratory LIMS for a LAN to generate a summarized report of test results; interprets and integrates data collection from multiple instruments into a LAN for legal record and report production.

9. Formulates the budgetary requirements of the Forensic Laboratory Division; makes staffing recommendations to the Chief Medical Examiner; evaluates needs and makes recommendations for new or replacement instrumentation, software and hardware.

IMPORTANT AND ESSENTIAL KNOWLEDGES, SKILLS, AND ABILITIES

Knowledge of: principles and practices of chemistry, biochemistry, pharmacology and forensic toxicology with specific application to the analyses of human body tissues and fluids; the interaction of organic and inorganic compounds, especially drugs, with human systems; applicable legal terms, code sections, court procedures, and the laws of evidence; analytical instrumentation and equipment, as well as computer software and hardware, needed to perform difficult and complex toxicological examinations; principles of instrument and detector function and maintenance; principles of quality assurance and methods of assuring accurate analysis of specimens.

Ability and Skill to: prepare clear, concise and effective written reports, procedures and protocols; speak and communicate technical information in a clear and understandable manner appropriate to the understanding of the listener or legal decider of fact; listen and effectively elicit information; utilize and evaluate computer systems instrumentation; organize, manage and coordinate laboratory activities at all levels; plan, assign, supervise, train and evaluate the work of subordinate personnel; conduct toxicological studies using complex equipment; interpret mass spectra results; perform independent research, prepare scientific reports, and articles for publication; review and evaluate technical, medical and legal reports and published data; apply specialized professional knowledge and skill in the use of scientific methods as a basis for formulating opinions or recommendations, particularly in a forensic context; interact effectively with representatives of other City agencies; provide expert professional advice and testify as an expert in courts of law on matters related to forensic toxicology; effectively teach forensic toxicology to all department staff and residents or fellows in medical or drug related training.

MINIMUM QUALIFICATIONS

These minimum qualifications establish the education, training, experience, special skills and/or license(s) which are required for employment in the classification. Please note, additional qualifications (i.e., special conditions) may apply to a particular position and will be stated on the exam/job announcement.

Education:
Possession of a doctorate degree from an accredited college or university in one of the natural sciences with advanced coursework in chemistry, pharmacology, or forensic toxicology.
Title: Chief Forensic Toxicologist  
Job Code: 2458

Experience:
Three (3) years of professional experience in forensic toxicology, one year of which must be obtained within the last three (3) years.

License and Certification:
Possession of a valid California driver’s license
Certification by the State of California Department of Public Health as a Title 17 Forensic Alcohol Supervisor (Certification must be obtained before the end of the probation period and maintained as a condition of employment).
Coursework and experience sufficient to meet the certification requirements by the American Board of Forensic Toxicology as Fellow (Certification must be obtained by the end of the probation period and maintained as a condition of employment).

PROMOTIVE LINES:
FROM: 2457 FORENSIC TOXICOLOGIST SUPERVISOR

ORIGINATION DATE:
AMENDED DATE: 03/07/88 (Retitled & Amended); 04/20/01; 04/18/14; 03/15/16

REASON FOR AMENDMENT: To accurately reflect the current tasks, knowledge, skills and abilities defined in the most recent job analysis conducted for this job code.
